During a meeting to celebrate completion of the plan, Djuro Pucar-Stari, Secretary, Central Committee of the Communist Party of Bosnia and Hercegovina, referred to the housing shortage at the mine. "Many workers are still without housing," he said, "and must travel tens of kilometers every day on foot to the houses where they are staying."

LOCAL MINES IN BOSNIA MEET QUOTA -- Politika, No 13082, 15 Nov 48

Among the local coal mines in Bosnia and Hercegovina which have completed their 1948 production plans ahead of schedule are the Bugojno mine, which had exceeded its plan by 41 percent on 1 November, and the Strugovnik mine, near Tuzla, which had fulfilled its plan 148 percent on 1 October. The Gradinac [unidentified] mine near Mostar and the mine at Dubno are about to complete their plans.

MINERAL DISCOVERIES IN MONTENEGRO -- Politika, No 13078, 11 Nov 48

A rich seam of coal of very good quality has been discovered in Pljevlja Srez [in the Sandjak of Montenegro], in addition to the old coal mine. An expedition which has been exploring the Pljevlja basin for a long time has discovered a deposit of coal 8-40 meters thick under a thin layer of earth.

Exploration at the "Suplja Stijena" zinc and lead mine also has revealed ore of outstanding quality. Twenty-six kilometers of road will have to be built to the mine, which is now inaccessible.

MACEDONIAN MINE MEETS PLAN -- Politika, No 13083, 17 Nov 48

The collective of the "Cer" mine [type of mine not indicated] fulfilled its 1948 production plan on 13 November, as a result of participation in three contests.

MINES INCREASE PRODUCTION -- Politika, No 13083, 17 Nov 48

Almost every mine in Yugoslavia has increased its production of late. The over-all plan for coal production in 1948 is 30 percent, and for ores 20 percent, higher than the 1947 plan. The "Stara-Jama" mine at Breza has fulfilled its plan, and the Bor, Trepcu, Dobra Sreca, Podvis, Zenica, Hrustnik, Trbovlje, Zagorje, Bogovina, Siveric, Aleksinac, and some other mines have almost finished theirs.

SERBIAN HEAVY INDUSTRIAL PLANT MEETS GOAL -- Politika, No 13089, 24 Nov 48

On 18 November the "Novkabel" enterprise [probably in or near Novi Sad, in the Vojvodina] completed its 1948 production plan by quantity 42 days ahead of schedule, and began work under the 1949 plan.

The enterprise had met its October plan 128 percent, and during the first 16 days of November exceeded that month's plan 33 percent.

[Politika, No 13086, 20 Nov 48: The workers' collective of "Novkabel" is the best collective in the Yugoslav electrical industry.]
